

Sophie Churchley, M.Sc., P.Geol  
Regional Resident Geologist | Thunder Bay North District  
Resident Geologist Program | Ontario Geological Survey

Mrs. Churchley is a Geologist based in Northwestern Ontario with 5 years of experience in the mineral exploration, mining and government sectors. After completing a Master of Science at Lakehead University she worked as an exploration geologist for Landore Resources and successfully helped facilitate a diamond drilling program and grassroots soil survey for gold mineralization.

Following her time in the junior exploration industry Mrs. Churchley went on to work in open pit operations at New Gold's Rainy River Mine where she focused on ore delineation and grade control. She is currently employed as a Resident Geologist for the Ministry of Mines and supports the mining and exploration industries at the grassroots level.
